## Cupar Library

Welcome to 2016! We are open on Wednesday, January 6<sup>th</sup> after a little Holiday break. Our hours remain to be open on Wednesday and Friday from 10:30-5 and we are hoping for a Wi-Fi installation very soon!

Thank you to all our raffle supporters for the Ice Cream Maker – your support helps us put on programs for all ages in the community! The winner of the Ice Cream Maker was Riley Larochele. Congrats!!

Seventeen children, five board members and three parents came for our December 11<sup>th</sup> cookie baking and chocolate making evening. All went home happy and with a gift bag full of cookies and chocolate items..... and full of sugar!! We may look at having another evening of this event in the New Year.

Our Valentine Tea and Bake Sale is on Saturday, February 13<sup>th</sup> from 1-3 pm. Library supporters are asked to kindly consider baking an item for this event. It will be held at the Legion Hall/Library and items can be dropped off at a board members house or at the Library that day. Proceeds from the bake sale will go towards the \$400 annual computer fee we pay towards being an automated library system.

More author visits will be looked into for the Spring.

You are welcome to attend our Annual Meeting on Thursday, January 21<sup>st</sup> at 7 pm. Board members will be treated to a dinner catered by the Paidei's at 6 pm. All patrons interested in attending our meetings or have ideas for programs are welcome.

## Cupar Pool "Brick" Fundraiser

The Cupar Pool is about to get a major renovation as it is well over due. With the matching grant we received, we will be replacing the boiler, the heater, new water lines, new liner in the pool (as we are losing about 5000 gallons of water every week due to cracking), cleaning equipment and whatever else we can get done to ensure the pool does not decay to the point of no return.

As this is quite an expensive venture, and the grant does not cover all the Reno's that need to be done, we are reaching out to the community to help out by raising enough money to replace the patio stones around the pool on the deck. We are selling "Bricks" at a cost of \$100/brick and everyone who buys one will have their name on a plaque displayed at the pool proudly showing their support. We have a good amount available but we are sure they will sell fast! Come on out and donate to the upgrade of the pool so our generation and the next generations can enjoy the only pool on Highway 22.

Receipt available at the Town Office and your name will be displayed on the wall at the pool recognizing your generosity!

## New Years' Fun facts!!!!!!

- It is often thought that the first visitors you see after ringing in the New Year would bring you good or bad luck, depending on who you keep as friends and enemies. That's why most people celebrating on New Year's Eve often do so with friends and family.
- If the first person to visit you was a tall and dark-haired man, this was especially lucky.
- Items or food that is ring-shaped is also good luck. This symbolizes "coming full circle", which is what one year does. Some cultures eat ring-like food through the evening and through the night to ensure that good luck will be bestowed upon everyone who eats. The Dutch often eat doughnuts.
- Black-eyed peas (usually with ham) are often consumed in certain parts of the United States. These are thought to bring good fortune in cultures around the world, not just in the U.S.
- Other foods that are eaten on New Year's Eve are cabbage because the leaves represent prosperity. Ham (or a hog) also symbolizes prosperity. In Asian cultures, rice is a hearty and lucky staple that is eaten around midnight to signify the coming year of fortune.
- Auld Lang Syne is sung at midnight to toast in the New Year. The song was composed by Robert Burns sometimes in the 1700's. The term means "old long ago" or "the good old days."
- Stats of the first New York ball: 700 pounds; 5 feet in diameter. The ball was made from wood and iron.
- The modern ball that is dropped is made from Waterford Crystal and weights over 1,000 pounds. There are over 9,000 LED lights, but uses hardly any energy. The ball begins to drop at 11:59 and completes the journey exactly at midnight to ring in the New Year.
