

TOWN OF CUPAR

Water Billing

Please note that all water bills are due before month end for the month they are issued.

Effective immediately, any residences with outstanding accounts on the first of the month will have their water supply shut off unless prior arrangements for payment have been made with the town office. It is the homeowner's responsibility to contact us; we will not be contacting you prior to cut-off. Once water has been shut off there is a \$50.00 reconnect fee added to your bill.

Please understand that the town pays for the water usage to Sask Water each month and delinquent payments hinder our ability to meet our expenses as well. Also, for residents, it is much easier to catch up on a one month payment rather than five months of missed payments.

Thank you for your co-operation and speedy payments!

SNOW REMOVAL

In order to do the best we can removing snow from our streets we are asking the following from our residents:

1. Please ensure your vehicles are parked off the streets during our snow removal time. This enables us to clean right to curb and avoid the snow build up.
2. Please remove your garbage/recycle bins from the street as soon as you can after pickup.
3. Do not blow your snow onto the street. This makes it thick and packed and difficult for people to get around between street cleanings.

We ask that you be patient with us during the winter as we are getting to all the areas for snow removal, it does take time and we all know how precious time is.

We urge residents to attend our regular meetings to hear what is new, what is being worked on and to voice concerns to be taken to the Regina Qu'Appelle Health District.

We are not a committee that is available to help all issues but to direct you in the right direction during difficult times or misunderstanding.

## Cupar History

Information has been located in the Cupar History Book

Cupar was named by CPR officials for the town of Cupar in Fifeshire, Scotland.

Cupar, Scotland is located north of Edinburgh and local residents who have visited it say it lies in a slight valley. It is an agricultural town, a former county capital, and numbers some 1500 to 2000 residents, some of whom are aware of the existence of Cupar Saskatchewan.

Cupar, Saskatchewan was incorporated as a village in 1905.
